

214 Beacon St -

Boston -

2 October 1890.

Sereno Watson - Esq

Dear Sir -

I have lately returned from the Sandwich Islands and am the bearer of some botanical specimens from Mr. Wm. T. Brigham - He also wishes me to get some information from you as to kinds of paper for drying and preserving plants. Would you kindly let me know an hour in either afternoon or evening when it will be convenient for me to call upon you and whether at your house

or the Botanic Gardens - I  
can be in Cambridge any time  
after three o'clock should the  
afternoon be more convenient -

Very truly yours

Wm. B. Clark.
